Refinement Self-Enhancement Career

Success Modeling}{/niftybox}

Well, it is time to prepare for the workforce and land the job you've been fanaticizing about. What should you do? The answer is simple, learn the basics of "How to Prepare to Succeed."

What is a job? A job is entertainment that I get paid for. Example: electrician, chef, teacher, doctor, veterinarian, secretary, judge, lawyer, child care attendant, artist, airline pilot. These are just a few examples of jobs that can provide entertainment for me, as well as money. (You will need money for a house, car, clothes, etc.). You have to decide what you would like to be and prepare for college if necessary, and become that. Because you will like what you will be doing, it will be more like "being entertained" while you do your job instead of "working", and you will love your job – and the money you make! YOU MUST BE DETERMINED TO MAKE SOMETHING GOOD OF YOURSELF.

**In this seminar you will learn:**

- Picking Your Part
- Your Next Step
- Planning
